

Soil Hydrometers 0-60deg

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Soil Hydrometers 0-60deg

Manufacturer: Hira
Model: MAT-HIR-03346
Availability: In Stock

Description

These are soil hydrometers graduated from -5 to +60 g/L, used in the hydrometer analysis method (BS 1377/ASTM D422) to determine the particle-size distribution of the fine (silt/clay) fraction of a soil.
