

Concrete Tamping Bar

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Concrete Tamping Bar

Manufacturer: Hira

Model: MAT-HIR-03412

Availability: In Stock

Description

This is a square-section steel tamping bar with a rounded steel handle end, used to compact concrete in cube moulds to BS EN 12390-2/BS 1881-108, struck into the mould in a set number of blows per layer to expel entrapped air before compressive-strength testing.
