Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Langry LR-10T Pull-out Anchor Tester

Manufacturer: Langry
Model: NDT-LAN-03477
Availability: In Stock

Description

The LANGRY Anchor Bolt Pull-out Tester is a versatile tool for testing the anchoring force of various components. It is ideal for on-site testing and quality inspections. The LR series anchor pull-out tester is suitable for anchor force testing of anchor rods, steel bars, expansion bolts, etc., and can also be used for on-site pull-out force testing of glass curtain walls (tests). It is one of the essential instruments for quality inspection of anchor rod construction projects. Versatile capacity options: 10T. Precise force measurement for accurate testing. The portable design facilitates on-site testing convenience. The thickened main body of high-strength steel with high-pressure res...
