Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Langry LR-50T Pull-out Anchor Tester

Manufacturer: Langry

Model: NDT-LAN-03480

Availability: In Stock

Description

The LR series anchor pull-out tester is suitable for anchor force testing of anchor rods, steel bars, expansion bolts, etc., and can also be used for on-site pull-out force testing of glass curtain walls (tests). It is one of the essential instruments for quality inspection of anchor rod construction projects. Enhance testing precision with the Anchor Bolt Pull-out Tester R-50T. It is versatile, reliable, and perfect for assessing anchoring force in various components. High capacity options: 50T. Accurate force measurement for precise testing. Robust construction ensures durability in demanding environments. The thickened main body of high-strength steel with high-pressure resistance a...
