

Central Extruder, Complete With 20kN Hydraulic Jack And Accessories

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Central Extruder, Complete With 20kN Hydraulic Jack And Accessories

Manufacturer: Hira
Model: MAT-HIR-03548
Availability: In Stock

Description

This bench extruder is built around a 20kN hydraulic jack that pushes the compacted specimen out of the mould. The mould sits between vertical guide columns with an adjustable top platen, avoiding hammering the sample out and protecting its shape for further testing.
