Product Overview

Swell Measurement Tripod Complete With Gauge Calibrated In 0.01mm Divisions

Manufacturer: Hira
Model: MAT-HIR-03559
Availability: In Stock

Description

This three-legged tripod straddles the CBR mould, carrying a dial gauge calibrated in 0.01mm divisions to record specimen swell during soaking. Legs rest on the mould rim so the gauge stem bears on the swell plate's centre post, giving a stable, repeatable reading.
