

Trichloroethylene (205 Litre Drum)

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Trichloroethylene (205 Litre Drum)

Manufacturer: Hira
Model: MAT-HIR-03628
Availability: In Stock

Description

Trichloroethylene is a clear, non-flammable chlorinated-hydrocarbon solvent supplied in a 205 litre steel drum for industrial and laboratory use, prized for its strong solvency toward oils, greases and bitumen, making it a standard degreasing and extraction agent for bitumen extraction testing.
