

Flow Meter BS 598 Dial Gauge Graduated 0.01 Mm With 25 Mm

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Flow Meter BS 598 Dial Gauge Graduated 0.01 Mm With 25 Mm

Manufacturer: Hira
Model: MAT-HIR-03631
Availability: In Stock

Description

This is a precision dial flow meter to BS 598, used to measure specimen flow during the Marshall stability test. It mounts on a sleeve that clips over the breaking head's guide rod and has a maximum-position brake, graduated in 0.01mm divisions over 25mm travel.
