

Pots Suitable For Heating Bitumen

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Pots Suitable For Heating Bitumen

Manufacturer: Hira
Model: MAT-HIR-03645
Availability: In Stock

Description

This is a thermostatically controlled melting pot suitable for heating bitumen, with a metal container inside an insulated steel jacket, a lift-off lid, and a dial thermostat, used for keeping bitumen fluid during asphalt sample preparation.
