

Ladle For Placing Mixture In Moulds

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Ladle For Placing Mixture In Moulds

Manufacturer: Hira
Model: MAT-HIR-03653
Availability: In Stock

Description

This is a long-handled stainless steel ladle used to transfer hot asphalt mixture from the mixing bowl into Marshall moulds, with a deep bowl that keeps the operator's hand away from the hot mix while pouring.
