

Solvent Recovery Unit

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Solvent Recovery Unit

Manufacturer: Hira
Model: MAT-HIR-03669
Availability: In Stock

Description

This is a self-contained solvent recovery unit that reclaims and recycles the solvent drawn off during bitumen extraction, distilling dirty solvent through an internal heater and condensing it through a water-cooled coil into a clean-solvent tank.
