

Binder Recovery

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Binder Recovery

Manufacturer: Hira
Model: MAT-HIR-03689
Availability: In Stock

Description

This is a binder recovery (Abson method) apparatus: a glass distillation assembly with metallic stand, electric heating mantle and regulator, water-jacketed condenser and CO2 aeration tube, used to recover asphalt binder from extraction solvent per AASHTO T170/ASTM D1856 while preserving its properties for further testing.
