

Distillation Assembly To AASHTO T170

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Distillation Assembly To AASHTO T170

Manufacturer: Hira
Model: MAT-HIR-03701
Availability: In Stock

Description

This is a complete distillation assembly to AASHTO T170, comprising a Claisen flask, water-jacketed condenser, low-range thermometer, inlet aeration tube, electric heating mantle, gas flow meter, and support stands/clamps, used to recover asphalt binder from a prior solvent extraction under a CO2 purge.
