

Water Jacketed Condenser

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Water Jacketed Condenser

Manufacturer: Hira
Model: MAT-HIR-03703
Availability: In Stock

Description

This is a water-jacketed glass condenser, its outer jacket circulating cooling water around the inner tube to condense solvent vapour efficiently during a distillation/recovery boil-down.
