

Sand For Density Test

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Sand For Density Test

Manufacturer: Hira

Model: MAT-HIR-03711

Availability: In Stock

Description

This is clean, dry, free-flowing uncemented calibration sand for the sand-cone field density method, graded so few particles pass a No. 200 sieve or are retained on a No. 10 sieve, per ASTM D1556/AASHTO T191.
