

Sodium Hydroxide (reagent Grade)

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Sodium Hydroxide (reagent Grade)

Manufacturer: Hira

Model: MAT-HIR-03714

Availability: In Stock

Description

Sodium hydroxide (reagent grade) is supplied as white, hygroscopic pellets in a sealed reagent bottle. It is a strong caustic base used for pH adjustment, titrations, and saponification in soil-chemistry and general lab work.
