

Motorized Compression/Tens Ion Machine

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Motorized Compression/Tens Ion Machine

Manufacturer: Hira
Model: MAT-HIR-03820
Availability: In Stock

Description

This is a motorized, microprocessor-controlled compression/tension testing machine with a four-column loading frame and touchscreen control unit, applying a steadily increasing load to break concrete cubes, cylinders, and beams while digitally logging peak load, stress, and failure detection.
