

In-Situ Water Permeability Test Kit

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

In-Situ Water Permeability Test Kit

Manufacturer: Hira
Model: MAT-HIR-03824
Availability: In Stock

Description

This is a portable field kit for measuring in-situ soil hydraulic conductivity directly in a borehole without extracting samples, comprising a permeameter body, tripod, hand auger, collapsible water reservoir, and vacuum pump.
