

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Bulk Density Kit

Manufacturer: Hira
Model: MAT-HIR-03826
Availability: In Stock

Description

This is a bulk density kit: a graduated set of stainless-steel cylindrical measures used to determine the loose or compacted bulk density and voids content of aggregates, each with a smooth, flat rim for accurate levelling and strike-off.
