Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Organic Impurities Test Set

Manufacturer: Hira

Model: MAT-HIR-03829

Availability: In Stock

Description

This is an organic impurities test set, a graduated bottle, NaOH reagent and glass colour standards, used to compare a digested sand sample's colour against references to flag harmful organic content, per ASTM C40/AASHTO T21.
