

Digital Point Load Tester

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Digital Point Load Tester

Manufacturer: Hira

Model: MAT-HIR-03833

Availability: In Stock

Description

This is a manually operated hydraulic digital point load testing frame with a high-precision digital load cell, used to estimate the strength index of rock core, block, or irregular lump specimens, conforming to ASTM D5731 and ISRM suggested methods.
