

Hand Operated Casagrande Equipment

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Hand Operated Casagrande Equipment

Manufacturer: Hira

Model: MAT-HIR-03839

Availability: In Stock

Description

This is a manually cranked Casagrande liquid limit device with a crank-and-cam mechanism that lifts and drops a brass cup onto a hard rubber base at a standardized rate, used to find the moisture content at which fine-grained soil shifts from plastic to liquid state, per ASTM D4318/BS 1377-2.
