

Shear Machine

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Shear Machine

Manufacturer: Hira
Model: MAT-HIR-03843
Availability: In Stock

Description

This is an electromechanical direct/residual shear testing machine for soils, using servo-controlled actuators with load cells and linear transducers to run fully automated shear and consolidation phases, complying with ASTM D3080/AASHTO T236/BS 1377-7.
