

Sand Replacement Equipment

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Sand Replacement Equipment

Manufacturer: Hira

Model: MAT-HIR-03857

Availability: In Stock

Description

This is a sand replacement equipment set comprising a threaded plastic jar, a detachable brass double cone with a shutoff valve, and a base plate/tray, used to determine in-situ soil density by replacing an excavated volume of soil with calibrated free-flowing sand.
