

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Tri-Axial Test Set

Manufacturer: Hira
Model: MAT-HIR-03860
Availability: In Stock

Description

This is a triaxial shear-strength load frame used with a confining cell to run UU/CU/CD tests on cylindrical soil specimens, where the sample is membrane-wrapped, laterally confined by cell pressure, then axially loaded to failure.
