

Gauge Rods

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Gauge Rods

Manufacturer: Hira
Model: MAT-HIR-03864
Availability: In Stock

Description

These are a set of interchangeable extension/positioning gauge rods used to correctly position the penetration piston above the soil surface in field CBR testing, with several tube lengths allowing the exact stand-off distance to be built between the loading jack and the ground.
