

Length Comparator

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Length Comparator

Manufacturer: Hira
Model: MAT-HIR-03872
Availability: In Stock

Description

This is a precision dial length comparator used to measure length change in hardened cement, mortar, and concrete prism specimens, featuring a stationary and movable anvil that engage gauge studs cast into the specimen, complying with ASTM C490/C1260.
