

UTest Aggregate Crushing Value (ACV) Set Ø 150 mm BS

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

UTest Aggregate Crushing Value (ACV) Set Ø 150 mm BS

Manufacturer: UTEST

Model: MAT-UTE-03940

Availability: In Stock

Description

Standards: BS 812:110, 812-11 The Aggregate Crushing Value (ACV) Test Set provides a relative measure of the resistance of an aggregate to crushing under a gradually applied compressive load. Each set consists of steel cylinder, plunger, base plate, cylindrical measure and tamping rod. All parts of the apparatus are powder coated or galvanized steel, heat treated and ground before manufacturing to make it durable and reliable. For aggregates smaller than 10 mm, a 75 mm diameter cylinder and associated equipment is available. UTA-0630 and UTA-0640 Test Sets are also used for the Ten Percent Fines Value (TFV) of aggregates according to BS 812:111. The Aggregate Crushing Value (ACV) Set is supplied...
