Product Overview

TIAN 34-T0093 Swell measurement tripod complete with guage calibrated in 0.01mm divisions

Manufacturer: TIAN
Model: MAT-TIA-3710895
Availability: In Stock

Description

This three-legged tripod straddles the CBR mould, carrying a dial gauge calibrated in 0.01mm divisions to record specimen swell during soaking. Legs rest on the mould rim so the gauge stem bears on the swell plate's centre post, giving a stable, repeatable reading.
