

TIAN EDG-1S, none nuclear soil density gauge Troxler or similar nuclear density testing apparatus complete with safety equipment

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

TIAN EDG-1S, none nuclear soil density gauge Troxler or similar nuclear density testing apparatus complete with safety equipment

Manufacturer: TIAN
Model: MAT-TIA-7610562
Availability: In Stock

Description

The EDG-1S is a portable, battery-powered electrical soil density gauge that measures dry density, percent compaction, and moisture without radioactive material, as a nuclear-gauge alternative. The complete kit includes the display/control unit, driving hammer, sensor dart array, and connecting cables/electrodes, with roughly +/-1% accuracy.
