

TIAN TPCD-100 Cubic Specimen Capping Set

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

TIAN TPCD-100 Cubic Specimen Capping Set

Manufacturer: TIAN
Model: MAT-TIA-8072684
Availability: In Stock

Description

The TPCD-100 is a manually operated specimen-capping device that clamps a concrete specimen (up to 100mm) and uses a hand-wheel-driven screw ram to press a levelling plate against its face, producing a flat, parallel bearing surface for accurate compression testing to EN 12390-3.
