

TIAN Extension rods For DCP

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

TIAN Extension rods For DCP

Manufacturer: TIAN
Model: MAT-TIA-5163953
Availability: In Stock

Description

A galvanized steel extension rod section used to lengthen a Dynamic Cone Penetrometer's drive string for deeper soil penetration testing. It couples between the DCP's drive rod and cone tip via a threaded connection, allowing continuous depth readings beyond the standard range, commonly used in sets to reach depths up to 2m or more.
